

TRANSPORTATION SOLUTIONS
FOR THE 21ST CENTURY

► AIRCRAFT MAINTENANCE SERVICES

For over 60 years, our maintenance services are centered around you and your aircraft needs. Our 9000 sq. ft. maintenance and parts facility houses a vast selection of tooling and equipment for almost any general aviation issue. We want to keep your airplane airworthy so it is always ready for your next flight.

We offer:

- Knowledgeable and experienced Airframe and Powerplant mechanics
- Export/import inspections
- Large parts inventory
- Aircraft annual and periodic inspections
- Aircraft weighing
- Sheet metal repair (major and minor)
- Aircraft STC modifications
- Engine overhaul removal and installations
- Pre-purchase inspection
- And much more

Our core competencies:

- General aviation single and multi-engine aircraft
- King Air 90-100 maintenance
- Learjet 30 Series maintenance
- Piper specialists
- IA on staff

Bring us your annual inspections, general maintenance work or aircraft parts requirements and we will find your solution.
